Organic revenue growth and acquisitions drive solid result

Financial highlights

- EBIT increased DKK 69m to DKK 710m up 11%
- Net revenue amounted to DKK 3,791m compared to DKK 3,518m last year. An increase of 8% of which 2% was organic
- Volumes increased 5% to 5.5 million hectoliters. Organic growth was 1%
- NR/HL increase organically by 1%, but more in the individual categories
- Market shares were slightly improved

M&A activities

- In August 2019 Royal Unibrew acquired 100% of the share capital of the Bruce Ashley Group Inc. in Canada.
- During H1 Royal Unibrew entered into an agreement to acquire the Latvian craft brewery SIA Bauskas Alus.
- Bev.Con ApS and CULT has been merged with Royal Unibrew A/S

Outlook

The outlook from March 2019 is specified to be in the upper end of the interval

Consistent commercial execution and acquisitions drive solid earnings growth

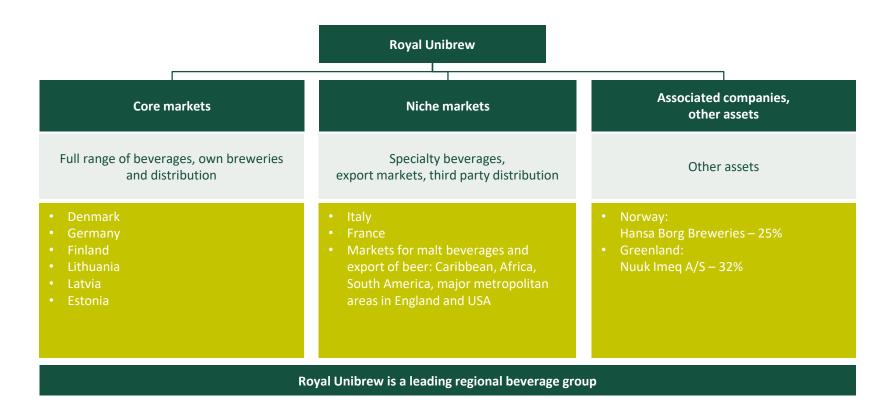

- · Market shares slightly improved
- Solid revenue improvement by 8% (organic +2%)
- Both EBITDA margin and EBIT margin increased by a half percentage point
- Earnings per share up from DKK 9.9 to DKK 10.9 (+10%)
- Strong free cash flow
- The share buy-back is on track
- We maintain our strategic flexibility

A Leading Regional Beverage Group

Innovation

Identifying trends for products, brands, packaging, preferences & moment of consumption

Craft & Specialty

Tapping into craft value. Establishing a new craft brewery & craft brew organisation

Consumer Activation

Engaging the consumer on shared passions & common goals supportive of brand equity

Operational Efficiency

Continuous efficiency improvements

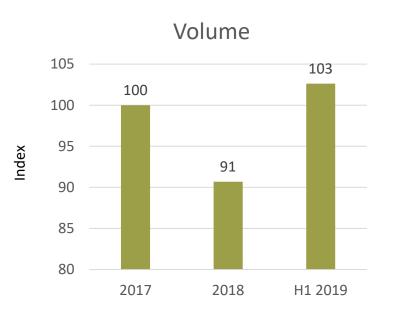

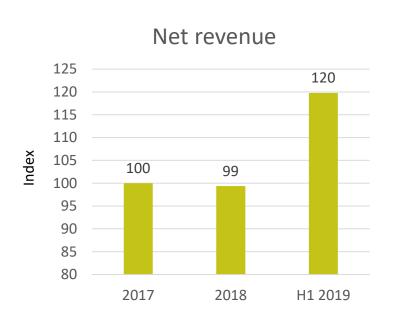

Talent and people – high priorty to retaining experienced employees and recruiting new employees

CRODO SOFT DRINKS development

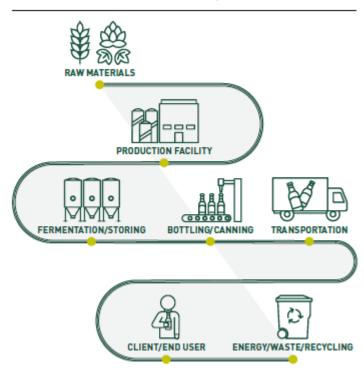

2017 = acquired baseline

Working with CSR

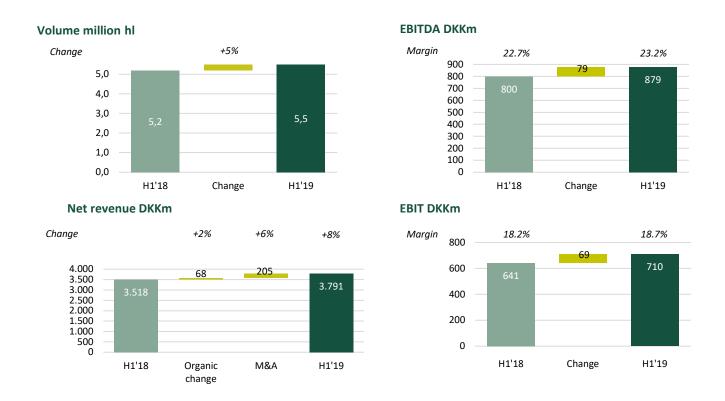

- Working with CSR is an integrated part of Royal Unibrew's business
- In 2019 Royal Unibrew will establish a baseline for our total green house gas emissions with the aim to set goals in our endeavors to become CO₂ neutral
- During 2019, we commit ourselves to joining the UN Global Compact and the UN Guiding Principles on Business and Human Rights. Further, during 2019 we will establish a baseline for our total greenhouse gas emission in order to set targets for our journey towards a neutral carbon footprint.

EBIT	1,440 – 1,465	1,340 – 1,465	1,339	1,069

The outlook announced in March 2019 is specified to the upper end of the intervals

- Royal Unibrew is the second biggest brewer in the Nordic and Baltic region
- EBITDA DKK 1,673
- Export to approx. 85 countries
- 5 breweries and 4 soft drink /water facilities

Development in segments

Western Europe

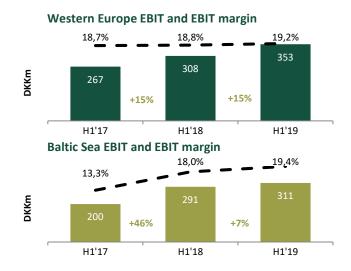

- Volume +9%, Revenue +12%, EBIT growth +15%
- Denmark & Germany
 - Market development as expected.
 - The average NR/HL was higher due to price pack execution and product mix.
- Southern Europe
 - Organically volumes increased by 5% and net revenue by 2% in spite a very bad May, where market was down 10% in Italy compared to last year
 - Integration of the Lorina business in France is progressing as planned. The ERP system SAP was successfully implemented in Q2

Baltic Sea

- Volume -1%, Revenue 0%, EBIT growth +7%
- Finland
 - No extraordinary beer campaign in Q2 in Finland compared to last year affects volumes and net revenue negatively
- Baltics
 - Beer market remains challenging, which is offset by the positive development in non-alcoholic categories
 - We have gained in the non-alcohol segment and maintained our market share in the beer

International

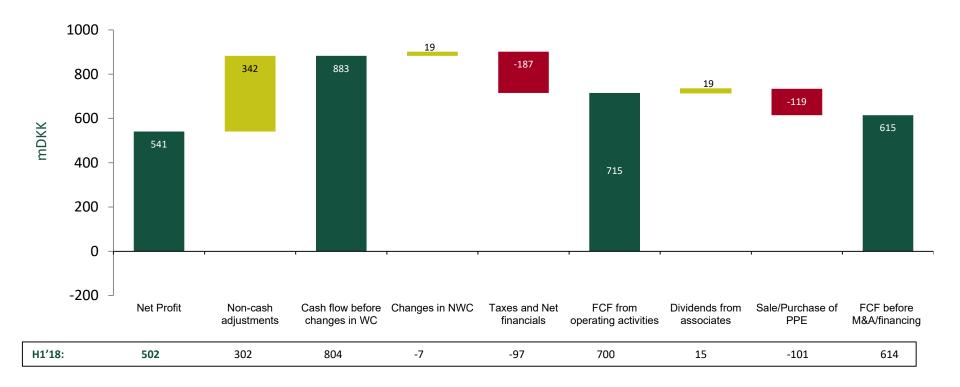

- Volume +19%, Revenue +30%, EBIT growth +5%
 - Double digit organic revenue growth
 - Positive impact from currency development
 - EBIT has been negatively impacted by a challenging environment in the UK

Disclaimer

This Interim Report contains forward-looking statements, including statements about the Group's sales, revenues, earnings, spending, margins, cash flow, inventory, products, actions, plans, strategies, objectives and guidance with respect to the Group's future operating results. Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and may contain the following words or phrases "believe, anticipate, expect, estimate, intend, plan, project, will be, will continue, likely to result, could, may, might", or any variations of such words or other words with similar meanings. Any such statements involve known and unknown risks, estimates, assumptions and uncertainties that could cause the Group's actual results, performance, or industry results to differ materially from the results expressed or implied in such forward-looking statements. The Group assumes no obligation to update any such forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting such forward-looking statements.

Some important risk factors that may have direct bearing on the Group's actual results include, but are not limited to: economic and political uncertainty (including interest rates and exchange rates), financial and regulatory developments, development in the demand for the Group's products, introduction of and demand for new products, the competitive environment and the industry in which the Group operates, changes in consumer preferences, increasing industry consolidation, the availability and pricing of raw materials and packaging materials, cost of energy, production- and distribution-related issues, information technology failures, breach or unexpected termination of contracts, price reductions resulting from market-driven price reductions, determination of fair value in the opening balance sheet of acquired entities, litigation, environmental issues and other unforeseen factors.

New risk factors can emerge in the future, which the Group cannot predict. Furthermore, the Group cannot assess the impact of each factor on the Group's business or the extent to which any individual risk factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. Accordingly, forward-looking statements should not be relied on as a prediction of actual results.
